

Can you “spend” an hour to advance our field?

The AAPL Institute for Education and Research (AIER) is asking AAPL members to donate the income from one hour of your professional time to support grants for education and research in forensic psychiatry.

Why not do it annually?

Donation Options:

- One Time Donations
- Monthly Donations
- Annual Donations
- Major Gifts
- Bequests in Wills
- Proceeds from Fundraising Events

Supporting research and the development of educational resources is a foundation for a respected health profession. This is what the AAPL Institute for Education and Research (AIER) contributes to the advancement of the forensic psychiatry.

AIER was founded in 2004 to:

- Engage in education and research activities; Stimulate and encourage important and creative educational research programs in forensic psychiatry;
- Train and encourage the trainings of forensic psychiatry educators, researchers and students;
- Provide educational resources and activities for members; and
- Promote development of linkages and synergies among forensic education and research programs.

EXAMPLES OF PROJECTS FUNDED BY AIER

Education Projects

- Teaching DVDs for use by Forensic Psychiatry fellows & trainees
- Suicide and violence risk assessment educational training product *Introduction to Forensic Psychiatry - A National Model for an Interactive Module-Based Curriculum*
- Cultivating confidence in the practice of secure recovery through education of forensic interprofessional staff

Education Grant possibilities include educational training tools, virtual education, CME courses, and more

Research Projects

- Understanding Sexual Offenders and Substance Use: Implications of Specific Drug and Alcohol Use Before and During Offending Plaintiff/Defense Bias Among Psychiatrists in Malpractice Cases
- The Validity and Reliability of the Aggression Assessment Recidivism Risk in Women Served by Community Corrections

Research Grant possibilities include trending topics, value of forensic psychiatry, impacts of practice, and more

DID YOU KNOW?

AIER has funded over \$350,000 for Education and Research projects specifically for forensic psychiatry.

The Institute is supported by donations from individuals and other institutions. Please consider making a donation [HERE](#).

EDUCATION GRANTS

fund projects developing an innovative product

RESEARCH GRANTS

support research conducted in forensic psychiatry

AAPL Members are encouraged to apply for an education or research grant to advance expertise and knowledge in forensic psychiatry. Submissions are accepted throughout the year.

For more information, to apply, or to donate go to: www.aapl.org/aier

”

The grants from the AAPL Institute for Education and Research were instrumental in allowing continued research on the prediction of violence and aggression by children and adolescents, a timely relevant topic...and were crucial for my academic career and research.

DR. DREW BARZMAN

”

The AIER provided an inspiration for me to leap into forensic-related research during my early academic career. I, for one, was enriched by the experience of being the recipient of an AIER grant at an early stage of my career.

H.W. TERRY LEBOURGEOIS
